# OVERVIEW

\$PedroCoin - The Legend of Memes !

The rise of meme culture has transformed the cryptocurrency landscape, introducing a new wave of tokens that resonate with the younger generation.

- Amidst this surge, the PedroCoin emerges, not just as another meme coin, but as a symbol of innovation and advancement in the digital trading universe.

- So, Welcome to the world of \$PEDRO – “The Legend of Memes” – an innovative and exiting digital asset Inspired by the charismatic and charming raccoon, this token is made for those who are ready to take on the challenge, take risks, and reach the top!

# \$PEDROCOIN

\$PedroCoin -The Legend of Memes !

- \$PEDRO is a new innovative global memecoin, symbolizing strength, confidence, and adventure with big ambitions, set to change your perception of cryptocurrencies.
- It is compliant with the ERC-20 token standard and aims to become The Leading Meme Token on the market by launching a powerful viral \$1,000,000 marketing campaign, leveraging the unique \$PEDRO brand, building a strong and active community around it!
- Pedrocoin gives power and control back to crypto lovers. Crypto enthusiasts are becoming more and more captivated by memes, causing more and more attention to be drawn to memecoins. Pedrocoin is a solution that satisfies all parties. Thanks to capabilities and blockchain, we have developed smart contracts that attract everyone, and also allow Web3 enthusiasts to automatically benefit from our unique referral program even during the PEDRO presale (see more in our whitepaper on the "Bonus & Referral Program" page). As a result, revenue streams function properly and meet the needs of everyone, especially early members of our community.

# TOKEN DISTRIBUTION

\$PedroCoin -The Legend of Memes !

- **The \$PEDRO will be distributed in three manners described below.**

- **Pre-sale:** During this period of time, the general public will have the ability to purchase \$PEDRO tokens at a large discount.

- Starting price will be \$0.02 per token.
- Every 48 hours, price will increase by 1.5%.
- 30% of the total token supply will be sold.
- Pre-sale period will last approximately 2 months.

- **Public Listing:** The initial listing will take place on Uniswap where additional tokens and Ethereum will be added to the liquidity pool. In addition to Uniswap, additional tokens will be listed on Centralized Exchanges. The tokens will be listed on DEX & CEX with a starting price of \$0.4\$. Early participants that took part in the presale will realize up to 20x gain!

- **Community Marketing:** The only remaining way tokens can be distributed is through community marketing. The community will be able to vote on how to allocate the remaining 5% of tokens to marketing efforts to further our goal of mass adoption.
